

# Rescue TnT Containment Masks

Made of 3 ply filter material for splash protection and avoidance of aerosolizing contaminants. Non-Latex ear bands. Also pleated to allow for contaminant run off. Flexible nose bridge to allow for better form fit over the nose. Large enough to cup the chin allowing for a better fit on the sides. Processed in a HEPA clean room using UV-C sterilizing light @5cm (65microW/cm<sup>2</sup>) and packaged in a sealed plastic bag.

Our masks are made right here in Bernalillo New Mexico by New Mexicans that have been impacted by the pandemic. All our material is sourced in New Mexico or made in the USA. Our pricing may seem high but we are Not made in China!
