What can Toast Delivery do for me?

Provide safer, contactless delivery options

- Offer delivery without having to hire your own drivers - whether placed online or on the phone.
- Local drivers are located and dispatched automatically once the order is placed.
- Provide an experience that's integrated seamlessly with Toast Online Ordering and Toast TakeOut.

Say goodbye to high, unpredictable commissions

- Maintain margins by paying one flat service fee per order, not a % of sales.
- Adjust delivery fees and minimum ticket sizes to pass some or all of the costs on to the guest.
- Access reporting and analytics within Toast.

Own your guest relationship and capture guest data

- Allow your guests to schedule and order directly from your website instead of third-party sites.
- Boost sales and drive repeat visits by meeting guest demand for delivery.
